

This is an excellent opportunity for individuals who are looking to enter a hot job field and learn valuable skills. The team and environment will lend themselves to learning and growth. If you're interested and motivated to find a new opportunity to learn, contact us! Position: Jr. Cyber Security Consultant/Intern

Location: San Clemente, CA

Hardcore Requirements: You would like to learn about cyber security in today's business world, work hard, have fun, make an impact, and start a career.

CISOSHARE is a cyber security consulting company that aims to make an impact for our clients, gets the most out of our efforts and enjoys life. We work hard but also work with an ocean view and ping pong table at the office.

We are looking for individuals to deliver security consulting services in worldwide clients. Our team performs cyber security program development and management services in established and emerging companies.

Most of the work will involve engaging with client teams to perform ongoing projects for their IT, security, and executive teams. These projects will focus on aligning businesses to cyber security program that meet best practice and regulatory requirements (e.g. HIPAA, ISO 27001/2, NIST 800-53, PCI DSS, COBIT, etc.).

Experience in the following industries is beneficial, but not required: healthcare, finance, and government. In addition, the individual will help build and grow a company while developing an essential skillset in today's business landscape.

The individual will also be involved in the development of our risk, vulnerability and incident management program development to help businesses efficiently and effectively manage their cyber security programs.

Candidate Skill Requirements Must Haves:

- Interest in cyber security, information security, and technology
- Proficiency with Microsoft Office
- Advanced Internet-based research skills
- Excellent written and verbal communication skills
- Ability to multi-task and quickly learn new concepts
- Excellent at problem solving and is a team player
- Ability to take instruction and constructive criticism
- Strong initiative and self-discipline

Nice to Haves:

- Associate's or Bachelor's degree in: Computer Science, Computer Information Systems, Criminal Justice, Business Administration etc.
- Military experience in related fields: Intelligence, Cyber Security, Communications, Systems Administration, and Operations are a big plus, but also open to all fields or motivated individuals
